Vision

To become the highest performing regional provider of Engineering services who performs to comply with international safety, environment and quality standards at all times.

Mission

We, Safe Energy Solutions Technical Services Co. LLC is dedicated in providing quality technical services to our customers. We will strive to implement a long-term relationship with our clients, based on safety, quality, timely service and an anticipation of their needs. To help fulfill this mission, we will treat all employees fairly and involve them in the quality improvement process to insure responsiveness and cost-effective work execution.

WHAT WE DO

- ◆ Supply, Installation & Modifications of LV Switchgear Services
- ◆ Supply of Industrial Electrical Services
- ◆ Supply & Installation of Pipeline Services
- ◆ Facility management Services
- ◆ Design Services
- ◆ Supply of Quality components & accessories for above services
- ◆ Supply of Skilled & talented technical staffs.

LV switchgear services

We offer to design, assemble and deliver the best LV switchgears as per our client's requirements in compliance with the best quality & safety standards. We also offer all kind of modifications, maintenances & services of any existing LV switchgear systems (motor control panels, VFD panels, PLC panels).

Our LV switchgear services includes the supply of the following

DB Panels

MDB Panels

SMDB Panels

ATS Panels

Capacitor Banks

Load Banks

VFD Panels

PLC Panels.

All Panels Testing & commissioning.

Industrial Electrical Services

We aim to perform and complete any technical related works with best in class safety and quality through our experienced and highly talented technical staff enabled with our world class machineries and tools. As a technical firm we ensure that our skilled engineering team cope up with the markets benchmark, standards and regulatory compliance.

Our Industrial Electrical Services covers the below

Supply of Electrical Systems

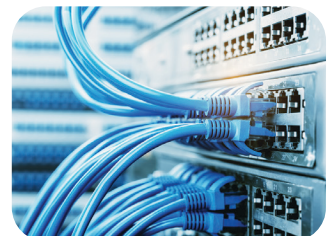

LV/MV/HV/FO Cabling

Cable dressing, termination & glanding

Cable pulling, laying & Industrial wiring

Maintenance works

Testing and Commissioning.

Pipeline Services

Our focus is in developing HDPE, PPR, PVC, SS & MS pipe line system's design, delivery & installation, to provide a safe and durable piping solutions. We are delivering rehabilitation services of existing pipelines by determining the health and condition of those pipe line.

Our offers on pipeline services are

- ◆ Supply & Installation of Pipeline in Pump room system.
- ◆ Supply & Installation of External Fire lines, valves & hydrants.
- ◆ Supply & Installation of External chilled water lines.
- ◆ Supply & Installation of External & internal potable water lines.
- ◆ Supply & Installation of commercial and residential Drainage waterline system.
- ◆ Fabrication of puddle flanges.
- ◆ Maintenance works.
- ◆ Testing & commissioning.

Facilities Management Services

Our facilities management team offer to professionally supply efficient & effective delivery of all support services related to real property and buildings. Our well experienced team is always keen in delivering competent solutions for the problems arising in the field of facilities management.

Our facilities management services bring you maintenance solutions for

- ♦ Electrical services
- ♦ Plumbing services
- ♦ Air Conditioning services
- ♦ Civil Works (All Masonry & Tile laying)
- ♦ Painting Services
- ♦ Also, we take care of all kind of new MEP & A/C installations.

Supply of Quality components & accessories

Generally, the key aspects of supply chain management are sourcing, scheduling and delivery. We offer to our clients, our efficient supply chain management solutions to outrun the delays in purchasing, planning and logistics of certain components & accessories associated with our services without compromising on safety and market standards.

Design Services

Our Design Division offers comprehensive design services starting from the project's initial phase all the way through to construction administration. By maintaining ongoing collaboration with architects, contractors, engineers, and other members of the design team, we ensure the delivery of accurate, detailed, and value-driven design documents for safe and durable structures.

We develop cost-effective structural systems that are appropriate for a variety of project types, guided by a philosophy of creating structural designs that enhance the architectural vision while simplifying the construction process.

Our team is highly skilled in designing a wide range of projects, including those with particularly complex structural requirements, and they bring extensive experience in overseeing various projects under tight quality and delivery time constraints.

AutoCAD Design

- ◆ **Architectural Drafting.**
- ◆ **Civil Drafting.**
- ◆ **Mechanical Drafting.**
- ◆ **Electrical Drafting.**

2D & 3D Graphics Design for BMS

We recognize the essential impact that graphics have on enhancing both the functionality and visual appeal of building automation systems. Our background in this area has been characterized by a strong focus on excellence & innovation, resulting in fruitful partnerships with respected organizations.

Our expertise goes beyond standard BAS graphic design. We excel in producing immersive 3D designs, utilizing cutting-edge tools to manifest your ideas with unmatched accuracy and creativity. Whether you need tailored floor plans, engaging videos, or virtual tours to enhance your brand, we possess the necessary skills and experience to surpass your expectations. Our commitment to discipline, persistence, and a steadfast resolve guarantees that each project we undertake is carried out with accuracy and professionalism. We focus on delivering a wide range of services tailored for the automation sector, which include:

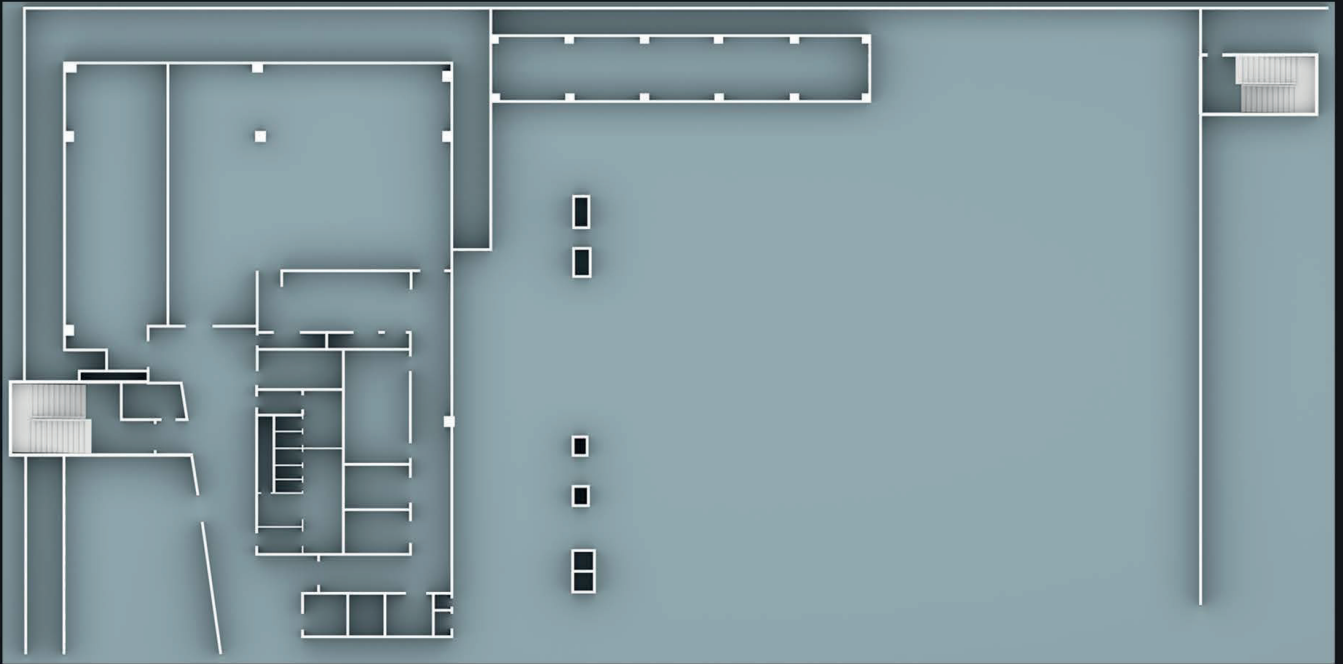

- ◆ **High-quality 3D graphics for Building Automation Systems (BAS) and Building Management Systems (BMS).**
- ◆ **Development of both 2D and 3D graphics.**
- ◆ **Assistance with graphics and data point assignments for BMS software platforms.**
- ◆ **Engaging animations for all types of equipment.**
- ◆ **Graphics for architectural layouts and furnished floor plans.**
- ◆ **Designing page layouts and navigation systems.**
- ◆ **Visual representations for fire alarm systems, CCTV, and access control systems.**
- ◆ **Support for graphics and software within the automation industry.**
- ◆ **Migration and upgrades from various existing graphics platforms, ensuring smooth transitions with our state-of-the-art 3D embedded BMS graphics.**
- ◆ **Creation of animated components based on specifications and integration with data points.**
